Please consult your local dealer or if relevant to your country, download the ABE certificate from the Eibach website. **£142.31**[3]

- Wheel spacer thickness: 20 mm, track widening per axle: 40 mm
- Made from high-tensile strength aluminium alloy
- Exact fitment and increased wheel balance by using minimal production tolerances
- All applications tested in rigid durability and fatigue tests
- Significant weight advantage compared to wheel-spacers made from steel
- Ideal combination for use with the Eibach® Pro-Kit suspension lowering system
- High-grade corrosion protection through a special coating process (salt spray test according to DIN 50021 standard)
