Pack contents:

Eibach®* Pro-Spacer Kit, wheel spacer System 4, silver anodized (Finis 2457014 x 2)
Your vehicle looks wider with the wheel spacers installed as its wheels are flush with the outer edges of the wheel arches, significantly enhancing its optical appearance. - Made from high-tensile-strength aluminium alloy.
- Exact fitment and increased wheel balance by using minimal production tolerances.
- All applications tested in rigid durability and fatigue tests.
- Significant weight advantage compared to wheel-spacers made from steel.
- Ideal combination for use with the Eibach® Pro-Kit suspension lowering system.
- High-grade corrosion protection through a special coating process (salt spray test according to DIN 50021 standard).
