ARB* Air Compressor kit, twin motor, on-board, 12 V

The twin motor air compressor kit is designed to be mounted on-board the vehicle, behind the right hand side rear wheel arch. It provides air on demand, at any time, from an air coupling outlet neatly mounted on the inner side of the load bed. The air compressor is constructed of lightweight and high-strength engineering grade materials for a quiet operation and extended durability. It has a class leading airflow rate and has been designed for fast inflation purposes. The kit contains the air compressor, mounting bracket, wiring harnesses, compressor switch, high pressure hose and all the necessary fittings required.

To be used in combination with the ARB Pump Up Kit and the ARB tyre pressure gauge (available separately) – Except Raptor
