Divider Bar (STL-File for 3D Printing)

3DPRINT0003

-

You'd love to have your storage spaces even more organised? The 3D printable divider bar for your vehicle's center console keeps even your smaller items together. Not only does it serve as a divider bar, but it comes with a pen holder, a card clip, and a lipstick or nail polish holder. Small upgrade with a big effect!To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.

Recommended Print Settings:

Bag Carrier (STL-File for 3D Printing) LHD only

3DPRINT0005

-

Your handbag has a new place in your car! With the 3D printable Bag Carrier your bags can be hooked more securely in your vehicle's passenger footwell. The carrier is designed to be inserted at the passenger side of the center console and give your handbags a dedicated place.To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.

Recommended Print Settings:

Bag Carrier (STL-File for 3D Printing) RHD only

3DPRINT0007

-

Your handbag has a new place in your car! With the 3D printable Bag Carrier your bags can be hooked more securely in your vehicle's passenger footwell. The carrier is designed to be inserted at the passenger side of the center console and give your handbags a dedicated place.To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.

Recommended Print Settings:

Multi-Purpose Box (STL-File for 3D Printing)

3DPRINT0001

-

Expand your storage possibilities with the 3D printable multi-purpose box. Designed to slot perfectly into your vehicle's center console, the box can help store your items in a more efficient way. The box can be fitted into the center console either vertically or horizontally. Make the most of your space!To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.

Multi-Purpose Cup Holder Interface (STL-File for 3D Printing)

3DPRINT0006

-

What if your center console's cup holder held more than just cups? Expand your possibilities with the 3D printable multi-purpose cup holder interface, fitted to your vehicle's cup holder. The interface allows you to apply various types of holders, be it for your phone, tablet, or a light. The model contains the cup holder interface as well as the phone holder. To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.

Recommended Print Settings:

Multi-Purpose Divider (STL-File for 3D Printing)

3DPRINT0004

-

You feel like the depth of your vehicle's center console is not yet used to its full potential? The 3D printable multi-purpose divider adds a second level to the storage space, with a flap to open it up and access the space below. When shut it provides a closed space that is not immediately obvious to help keep your valuables safe. To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.

Recommended Print Settings:

Storage Box (STL-File for 3D Printing)

3DPRINT0002

-

Keep your center console's storage space more organized! The 3D printable storage box fits easily into your vehicle's center console, separating the space into convenient sections. It even comes with a clip to keep your papers neatly together. No more sliding around! To prevent deformation of the printed parts in the vehicle, we recommend using more heat-resistant filaments and avoid the exposure of the product to direct sunlight. For multi-part articles, please glue the individual, static components together, ideally with superglue. Rotating or otherwise moving parts should not be glued in order not to impair the proper functioning of the product.
