## SAFETY ANTITHEFT DEVICES

RRP

### **Motion Sensing Key Fob for keyless entry, with ST logo**

2 467 415

The new motion sensing key fob detects when it has been stationary for longer than 40 seconds and triggers a sleep mode. This stops all attempts to hack its signal with a relay box. Moving the fob by picking it up inside your home and walking to your vehicle disables sleep mode and restores full functionality. The Motion Sensing Key Fob is designed to operate within a 2 metre radius of the vehicle it is bonded to. – ST

-

### **TVL\* Pedal Box**

FOFIE8PBM

## Eibach®\* Pro-Spacer Kit wheel spacer System 4, silver anodized

Kit contains 1 pair (2 spacers). Your vehicle looks wider with the wheel spacers installed as its wheels are flush with the outer edges of the wheel arches, significantly enhancing its optical appearance. By increasing the track width, an optimized driving behavior combined with higher stability is also achieved as it positively influences the roll of the chassis. Please note: possible wheel arch extension / body work required before fitting. Please consult your local dealer or if relevant to your country, download the ABE certificate from the Eibach website.
