Eibach®* Pro-Spacer Kit wheel spacer System 4, black anodized

2 516 590

Bring the ultimate finish to your lowered dream with sleek and flush lines delivered through this Pro-Spacer Kit.

Kit contains 1 pair (2 spacers). Your vehicle looks wider with the wheel spacers installed as its wheels are flush with the outer edges of the wheel arches, significantly enhancing its optical appearance. By increasing the track width, an optimized driving behavior combined with higher stability is also achieved as it positively influences the roll of the chassis. Please note: possible wheel arch extension / body work required before fitting. Please consult your local dealer or if relevant to your country, download the ABE certificate from the Eibach website.

- Wheel spacer thickness: 15 mm, track widening per axle: 30 mm
- Made from high-tensile strength aluminium alloy
- Exact fitment and increased wheel balance by using minimal production tolerances
- All applications tested in rigid durability and fatigue tests
- Significant weight advantage compared to wheel-spacers made from steel
- Ideal combination for use with the Eibach® Pro-Kit suspension lowering system
