4pets®* Dog Crate Pro 1 small

2 423 305

No more worries when travelling with your best friend, the professional standard aluminum Dog Crates combine high quality safety with simple functionality.

Robust and safe transportation solution made from high-quality aluminium for smaller sized breeds such as Cocker Spaniel, Dachshund, Terrier or Beagle with a max. weight of 17 kg. Specially developed aluminum bars provide maximum stabilization and are also anodized for an effective corrosion resistance. The door can be operated with one hand, leaving one hand free to hold the dog in place. The crate is secured with tie-down straps to the factory fitted anchor points in the luggage compartment. Main features: solid aluminum die-cast lock case, coated and scratch-resistant hardwood flooring, urine-resistant plastic tubing, crash-tested door lock system with 2 keys, impact protection system and special crash-tested rear panel. Completely maintenance-free thanks to hinges made of a self-lubricating plastic-graphite alloy. Easy and convenient in everyday use and allows a clear view of the road through the rear mirror. TÜV tested and also tested in accordance with ECE R17 to ensure your dog arrives safe and secure at the desired destination. Box weight: 13.6 kg, max. dog load: 17 kg. Motion Sensing Key Fob for keyless entry, with Ford logo

2 514 050

Fight back against car theft by upgrading to new Ford security technology. The new motion sensing key fob disables itself while not in use to block keyless hacking from relay box equipment and stops entry to your vehicle.

The new motion sensing key fob detects when it has been stationary for longer than 40 seconds and triggers a sleep mode. This stops all attempts to hack its signal with a relay box. Moving the fob by picking it up inside your home and walking to your vehicle disables sleep mode and restores full functionality. The Motion Sensing Key Fob is designed to operate within a 2 metre radius of the vehicle it is bonded to

- Please note that the Motion Sensing Key Fob and all your existing keys need to be programmed to your vehicle at your Ford dealer
